How to create a Google Chrome Profile?

Overview

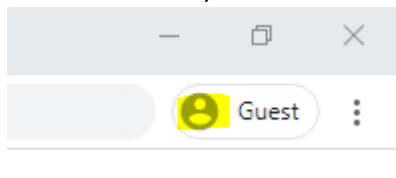

Google Chrome gives us to opportunity to create a user's Google Chrome profile for any @necase.ca email account or any Gmail account

Why?

If we create Google Chrome profile for each user, their bookmarks, history, passwords, and other settings will automatically be synchronized between devices and get benefitted with @necase setting browser with required apps and needless to setup @necase bookmarks

How?

1. On your computer, open **Google Chrome**.
2. At the top right, click Profile (It might contain man icon or your firstname initials or picture of another account)

3. Click **+Add**.

4. Enter necase.ca username and click on any picture shown (you can change picture later)
